PREFACE

No biographical catalogue of Lafayette College has been published since Prof. Coffin's "Men of Lafayette" in 1891. That the records of the men of that earlier period might be brought up to date, and that there might be a record of the men of the subsequent period, this catalogue has been prepared.

In the belief that the history of the College as such should be made a separate publication, nothing has been attempted in that matter. Lists of those who have been connected with the College as Trustees and members of the Faculty, with the dates of their service, have been included; also lists of those upon whom the College has conferred honorary degrees and of those who have done graduate work in the College. But biographies have been given only of those who have been regularly enrolled as students of the College.

These biographies have been presented in the briefest form possible on account of the limited space, and owing to lack of information some are very meager or wholly wanting. But great pains have been taken to secure the fullest and most accurate record possible without further delay.

The compiler desires to make thankful acknowledgment of the great help he has received from the remarkably full and excellent record made by Prof. Coffin in his "Men of Lafayette" concerning those who had been connected with the College previous to 1891. But for his painstaking labors in that former period it is probable much that we now have would have been lost beyond recovery.

Much help has also been received from the biographical catalogues of Union, Princeton and Western Theological Seminaries, and from the catalogues of the various fraternities and other biographical publications. Hundreds of kind responses to letters and circulars of inquiry have also contributed to the make-up of the record. Special mention is gladly made of the valuable assistance rendered by E. A. Weaver '74, Charles B. Green '86, Registrar of the College, Rev. M. A. Filson, Assistant in the library, and Prof. Coffin who still as always follows Lafayette Men with greatest interest. To have compiled the record would have been impossible indeed but for the help of the many who have brought the facts within reach.
